

Summer 2012

ROOF ANCHORS BULLETIN

Summer's heat is upon us, and Ascent Consulting has been extremely busy in establishing new business relationships and providing our Clients with an alternative approach to the roof anchor industry...

ANNOUNCEMENTS

Ascent Consulting collaborated with Lindvest Properties and Hariri Pontarini Architects on the design of the Fall Protection/ Suspended Access Safety System for the BILD multi-award winning B. Streets Condos project.

Our contribution of a design concept and related documentation was key to overcoming the challenges presented by this attractive and distinct building configuration.

EXPOSED! See the value we bring to your project by viewing our resumes at www.ascentcon.ca

Latest Industry Related Headlines:

Wednesday, June 6, 2012: Winnipeg window washer who fell eight storeys and through the front entrance glass solarium miraculously survives.

Monday, June 11, 2012: Workers are left dangling for more than an hour after stage collapses in downtown Calgary.

Thursday, June 21, 2012: Tragically, a roofer fell to his death while working on a residential roof in Toronto.

FALLS CAN BE PREVENTED...

It is the Building Owner's responsibility to ensure a safe and compliant safety access system has been provided and properly maintained for their maintenance contractors.

Our prime mandate is first and foremost, worker safety. Contact Ascent Consulting for a comprehensive second to none analysis of your safety access system requirements. We work directly with Building Owners, Property Managers, Architects and Engineers to ensure all aspects of your fall protection obligations have been addressed.

We look forward to hearing from you.

Through our combined proactive efforts, we can all, together, effect positive change.

Tom & Liz, June 2012

We wish you a safe and healthy summer!
